

Esmeriladora Angular

Satisfaciendo sus Necesidades Profesionales

GA9030 230mm (9")

GA9030 230mm (9")

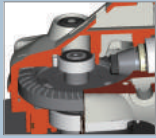

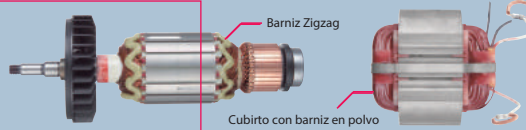

| | |
|--------------------------------|---------------------------------------|
| <i>Potencia</i> | 2.400W |
| <i>Diámetro de disco</i> | 230mm (9") |
| <i>Velocidad sin carga</i> | 6.600 |
| <i>Dimensiones (L x A x A)</i> | 503x250x140mm (19-3/4"x9-7/8"x5-1/2") |
| <i>Peso neto</i> | 6,3kg (13,9lbs) |

ESMERILADORAS
A N G U L A R E S

Durabilidad excepcional

/// Estructura Anti-polvo Superior

Barniz Zigzag protector de la bobina en la armadura. Polvo de barniz protege al campo de la bobina. Construcción de laberinto protege los baleros. Ventilación diseñada para minimizar la entrada de polvo.

/// Engranajes Helicoidales

tienen mayor duración que los engranes normales.

/// Neopreno largo para descansar la herramienta

/// Resistente al Incremento de Calor superior a nuestros modelos anteriores.

/// Límite de Torque

/// Poderoso Motor

230mm (9") GA9030

2,400W

/// Empuñadura que gira

Puede ser colocada en posición adecuada para operaciones de corte y desbaste. (90 grados Der./Izq.)

/// Empuñadura de menos vibración

Con neopreno para mayor control y confort.

/// Empuñadura lateral que Absorbe vibración (opcional)

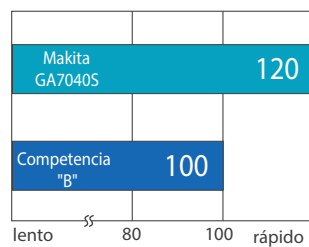

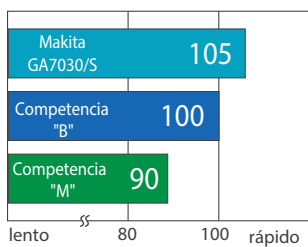

Datos de Funcionamiento

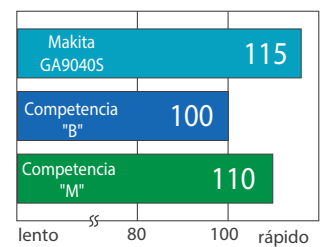

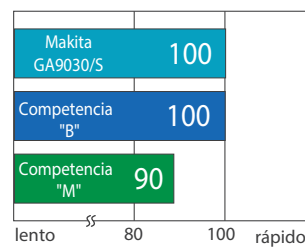

Corte eficiente en concreto

(Corte en concreto de 40 mm. de profundidad)

180mm Esmeriladoras Angulares

230mm Esmeriladoras Angulares

Los números en las gráficas son valores relativos cuando se toma la capacidad de la Competencia "B" como 100.

Esto puede variar bajo algunas condiciones.

Opción

Empuñadura Anti-vibración AVT

Maletín

Guarda para recolección de polvo

Cubierta para polvo Protege al motor de polvo de metal
